FIGHT IMMINENT DURING MEETING OF COMMITTEEMEN

West and East Sides of Second Senatorial District Conflict as to Time and Place

Deadlock Over Democratic Convention This Year.

APPEAL TO CHAIRMAN BERRY

A fight was not far to seek during the entire session of the Second senatorial district Democratic committee yesterday afternoon, which lasted several hours. The session concluded in a deadlock, two to two, with one side appealing to Central Committeeman W. A. Berry, and the other side contending that the first side had no right to appeal.

The committee is composed of W. F. Bradshaw, Jr., McCracken county chairman; Dan Fizer, Marshall county; John M. Moore, Ballard county; and J. Owen, Carlisle county. Hon. B. Barry, of Benton; W. V. Eaton, of Paducah, and John M. Moore, of La Center, the committeemen, are candidates for the senatorial nomination.

Barry and Eaton want the precinct conventions April 24, and a district convention at Benton April 27. Moore wants the precinct conventions held August 7 and the district convention at Arlington, Carlisle county, August 10.

After E. Barry, of Marshall county, failed to secure a popular primary for the nomination, which he is seeking, the committee split: W. F. Bradshaw, Jr., of McCracken county, and Dan Fizer, of Marshall county, siding with E. Barry and W. V. Eaton; and John M. Moore, of Ballard, also a candidate, and J. Owen, of Carlisle, holding out for a late convention. At one time it looked as though Moore and Fizer might rough house it a little.

The Squabble. Mr. Bradshaw presided and called for a vote on the location. Moore and Owen voted for Arlington and Fizer for Benton. Owen desired to reconsider the vote, but Moore insisted that only an affirmative vote could make such a motion. Then Mr. Bradshaw said that, since he represents a county, and is chairman only by virtue of representing the county with the largest accredited delegation he had the right to vote. Moore insisted that as chairman Mr. Bradshaw had no right to vote to create a tie. Mr. Bradshaw insisted that such a rule would disfranchise McCracken county, and the other candidates chimed in, that since Mr. Moore is a candidate, it is a violation of the proprieties, to say the least, for him to vote to carry the convention to a small town in a distant part of his own end of the district. So the squabble proceeded warming up as it lengthened.

However, Mr. Bradshaw voted for Benton. Moore insists that the minutes will show Mr. Bradshaw as declaring Arlington elected, and no reconsideration of the vote, as the committee would have been deadlocked as to reconsideration.

Next came the question of time, and Mr. Moore replied to his critics that he would not be a candidate for the senatorship unless a late date was set for the convention. He said he was a candidate against Hon. Wheeler Campbell last time in a four-day canvass and a snap convention was held. He accused the other two candidates of desiring to do him up that way again.

The result on time resulted in a tie and Mr. Bradshaw proposed to carry the matter before the central committeemen. Mr. Moore objected to this. He said there is no question of party procedure involved, but a simple question as to the proper time and place for a convention, something the committee will have to throw out for itself. So the first thing Mr. Berry will have to settle, is his own right to settle it.

May Be Colored Attorney. Springfield, Ill., Feb. 11.—Edward H. Norris sent a check and bought a life membership in the Lincoln Centennial association. Who he is is unknown. It is believed he probably is a colored attorney of that name, who has served as a member of the state legislature and is well known in politics. The membership entitles the holder to a seat at the banquet Friday night.

Lincoln Stamps

The Lincoln stamps were received at the Paducah postoffice last night, and were placed on sale at the postoffice this morning. Only a comparatively small supply of the special stamps was received. The stamps are of neat design and bear an excellent likeness of the war-time president.

George W. Walters Declared City Treasurer-Elect by the Appellate Court, Which Sustains Judge Reed

Holds the Constitutional Bar to Fiscal Officers Succeeding Themselves Applies to Office.

A long distance conversation with Judge O'Rear this afternoon he said that Judge Reed was sustained as to finding Mr. Dorian ineligible, but on a question of practice he reversed Judge Reed, practically sustaining the demerit of Dorian's attorneys, that Walters' pleading was not sufficient, as it did not show him eligible. It held that City Clerk Maurice McIntyre transcended his authority in presenting to pass on Walters' bond, which should go before the general council. The decision makes Walters treasurer as soon as he proves his eligibility and gives bond.

Frankfort, Ky., Feb. 11.—(Special.)—In sustaining the McCracken circuit court in the case of George Walters against John J. Dorian, the court of appeals today decided that under the constitution treasurers of second class cities are ineligible to re-election. Dorian was elected treasurer of Paducah in 1903, served a four years' term and was elected for another term in 1907.

The question of his eligibility was raised and another election was held in 1908, at which Walters was elected. Walters brought suit to obtain possession of the office. The lower court decided for him and the court here says Dorian was ineligible to election, and that when Walters' bond is approved, he has the right to the office.

WANT MONUMENT ON SHILOH.

U. D. C. Ask the Legislature for an Appropriation.

Nashville, Tenn., Feb. 11.—Among the petitions in the senate this morning was one by Matthews from the U. D. C. favoring an appropriation for a monument to the Confederate dead at Shiloh.

Observe Lincoln's Birthday. Springfield, Ill., Feb. 11.—The legislature will officially observe the one hundredth anniversary of the birth of Abraham Lincoln in joint session.

FIRE

Destroys Washburn Freight House at Chicago—Loss \$400,000. Chicago, Feb. 11.—The incoming freight house of the Washburn railroad, Twelfth and Dearborn streets, burned last night. Loss \$400,000. The building was said to contain considerable freight. A watchman stationed inside the building is missing. It is not known whether or not he was burned to death.

SECOND AMENDED PETITION FILED BY REVENUE AGENT IN THE SMEDLEY CASE

A second amended petition has been filed in circuit court by the prosecution in the case of W. M. Husbands, state revenue agent, against Hiram Smedley, county court clerk, for failure to report to the state auditor the collections of back taxes and state revenue from fees. It is alleged in the petition that on February 12, 1908, the Cohen paid \$400 to Smedley for a state license as a pawnbroker, but no report was ever made to the state auditor. Suit was filed against Cohen by the state auditor when a receipt for \$400 is said to have been found.

WEATHER.

PLEASANT.

Generally fair tonight and Friday; rising temperature. Highest temperature yesterday, 41; lowest today, 22.

GRAVE DILEMMA.

New York, Feb. 11.—Grave diggers today determined to carry to Gompers a dispute as to the class labor to which they belong, and asked to be admitted in the building trades, but the builders said the diggers were miscellaneous.

Good Catch Made

A good catch was made this morning by Patrolman Henry Singery when he nabbed Charles Gardner, colored, on a charge of breaking into a railroad station of the Louisville & Nashville railroad at Springfield, Tenn. Gardner, it is alleged, last week was detected trying to break into a box car in the Illinois Central railroad yard, but was shot by the police. The shot made a wound through his left ear, but he escaped. Since then the police have been on the guard, and today he was arrested near the "900" section. He was positively identified by the police and Chief Collins has notified the police department of the railroad. Gardner protests his innocence.

Four Men Killed.

Lorain, O., Feb. 11.—Four men were killed, one fatally injured and two seriously hurt when a high wind blew down a staking at the yards of the American Shipbuilding company. The men fell 100 feet to the bottom of the dry dock.

Tramp Fully Recovered.

James Vine, the tramp who was found frozen in a barn near Lamont, has left the county sanitarium. Vine was recovering slowly and was able to walk. Vine was a friend for morphine and cocaine, and used a drachm of morphine and ten grains of cocaine every three days. Vine was an expense on the county in this way, and when County Physician L. E. Young cut down his allowance of "dope," Vine concluded to leave.

UNUSUAL EPISODE.

Man Found Dead From Cold Near Mattoon. Beloit, Wis., Feb. 11.—"I'm living as Jesus lived," so said a young man who walked through the Big Four depot here three days ago offering figs and dates to the crowd in the waiting room. Later he purchased a ticket to Mattoon, Ill., and sent a telegram to Mrs. T. H. Fitzgerald, of Vallejo, Cal., signing it R. A. Graham. Railroad officials here got word from Tower Hall, a town-outside of Mattoon stating that "Graham's" body had been found near there frozen and stark naked.

Belefontaine, Ohio, Feb. 11.—"I'm living as Jesus lived," so said a young man who walked through the Big Four depot here three days ago offering figs and dates to the crowd in the waiting room. Later he purchased a ticket to Mattoon, Ill., and sent a telegram to Mrs. T. H. Fitzgerald, of Vallejo, Cal., signing it R. A. Graham. Railroad officials here got word from Tower Hall, a town-outside of Mattoon stating that "Graham's" body had been found near there frozen and stark naked.

SECOND AMENDED PETITION FILED BY REVENUE AGENT IN THE SMEDLEY CASE

Further, it is alleged in the petition, that Hiram Brothers' circus with one main show and three side-shows exhibited in Paducah September 30, 1908, and that Smedley collected a state license of \$250, but that no part of it has ever been reported to the state auditor. Another alleged discrepancy is that \$16 was collected by Smedley as taxes on the property of F. G. Rudolph and J. W. Hedges, but that it has not been reported. The total is \$666, which has not been reported, it is alleged.

Some of Mr. Husbands' friends have misunderstood the action of the fiscal court in appointing a committee for effecting a settlement with the bonding company. The court appointed the committee to make the settlement with the company for the money alleged to be due the county, which is said to be about \$1,000. Mr. Husbands, who is the state revenue agent for McCracken county, will effect the settlement with the bonding company for the money alleged due the state, and the appointing of the committee will in no way interfere with the settlement of the several thousand dollars alleged due the state and the suit in circuit court will be tried.

Back From Auto Show.

Mayor James P. Smith, Dan Fitzpatrick and Frank Rieko returned this morning from Chicago, where they attended the automobile show for three days. They say that the show was a success, and the auto enthusiasts had the pleasure of seeing a model of every car made. Mayor Smith purchased a \$5,000 Lozier car. Mr. Joseph L. Friedman purchased a \$7,500 Pierce-Arrow.

DENTIST OFFICES ROBBED OF THEIR GOLD BY EXPERTS

They Collect Every Scrap of Filling and Such Material as Can be Disposed of.

St. Louis or Chicago Fence Their Destination.

NO CLEW LEFT BY BURGLARS

Dentists were the victims of burglars last night, and two dentists' offices were stripped of gold and valuables. It is believed that the burglars are members of the same gang that has been operating through the adjoining states recently, and the ease of their work had all the earmarks of professionals. The office of Dr. Sidney Smith was robbed and every drawer was searched and a total of \$300 was carried away. Gold, even down to the chips, was carried away, and a \$5 bill covered up in a small drawer and several articles of jewelry were found. The office of Dr. R. M. Bright was robbed of \$10 in gold and articles and his supply of gold was completely exhausted.

No traces could be found of any entrance, and the police believe that the professionals used skeleton keys in unlocking the doors and then turned on the lights, for plenty of light was needed to find all of the chips of gold that the burglars took. The police went to work on the robberies this morning, but found little as a basis to work on, so smooth did the burglars operate.

Several weeks ago the dentists of Owensboro were robbed, following the publication of a story of the amount of gold that was used in filling teeth. The burglars understood their business, and must have been acquainted with the profession, as good bridge work was carried away while work of small value was left behind. Their discrimination is evident in every visit they made.

It is believed a "fence" for the disposition of dentists' material exists in Chicago or St. Louis.

Hospital League.

The members of the Hospital league of Riverside hospital will meet Friday afternoon at 2:30 o'clock with Mrs. Ed D. Hannan, of Fifth and Harrison streets. The meeting will be a regular one, and the regular committee will make reports.

SWITCHMAN FATALLY INJURED. Edward A. Carter Run Over By Illinois Central Train.

Calro, Ill., Feb. 11.—Edward A. Carter, an Illinois Central switchman, was run over yesterday morning in the Drainage district near the Greer-Wilkinson Lumber company's plant and received terrible injuries from which he died at St. Mary's Infirmary yesterday afternoon about 1 o'clock.

Melber Robbery

Melber, Ky., Feb. 11. (Special.)—The home of W. S. Ross, a farmer, was entered by burglars last night and \$580 was stolen. The burglars worked quietly and did not awaken the family. In a wallet in the bed was \$500 which the thieves secured without awakening Mr. Ross, and about \$80 was secured from his clothes. There is no clew has been discovered.

Negro Rescued From Stake

Lakeland, Fla., Feb. 11.—Whiteness today declared that Charles Humley, negro, rescued from death at the stake last night by the sheriff and two deputies, is innocent of assaulting Irma Newell, 15 years old. When the negro was accused the crowd caught Humley and tied him to a stake and heaped pine knots around him and poured kerosene over the heap. The sheriff and deputies stood off the crowd and finally rushed the negro to jail.

Hubbard-Hicks

Evidence was heard this morning in the suit of Ed Hubbard to oust H. B. Hicks and for possession of the books and records of the city license inspector. However, it will be not before Saturday when Judge Reed will announce his decision in the case. Attorneys for both sides this morning introduced ordinances regarding the duties and election of the city license inspector. A transcript of the evidence will be made for the court of appeals, as it is the opinion of the case will end in the court of appeals. The evidence will be completed tomorrow and Saturday the case will be argued, and then probably Judge Reed will give a decision.

VOLUNTARY SLAVES.

New York, Feb. 11.—On Lincoln's birthday E. T. O'Laughlin, secretary of the Parke Slope board of trade, will offer in Brooklyn church 200 white slaves for sale. These include discouraged men who are willing to go to any one offering food and shelter. Among them are a number of discouraged college graduates. Fifty men were sold once the same way.

PIMPLETON RUNS AGAINST SHOTGUN IN HANDS OF BOY

Protecting his mother and sister, Robert Blue, a 13-year-old colored boy, shot Wesley Pimpleton, colored, in the left arm and body today at noon. After quelling a disturbance with the one shot Blue walked to the police station and surrendered to Chief Collins. Pimpleton, alias "Pimp," a well known police character, is thought not to be seriously wounded and will recover.

After several quarrels with his wife, Pimpleton returned to her home, 1307 South Tenth street, at noon and renewed the trouble. He choked his wife, and threatened to cut her throat with a knife, it is alleged, when her mother, Fannie Jackson, interfered. Pimpleton threw bricks at her and knocked her down. Then it is said he started after the boy to finish "cleaning up the house." Blue raised a one-barrel shotgun and blazed away. Pimpleton was shot in the left arm.

President Signs Bill

Washington, Feb. 11.—The president has signed the urgent deficiency bill and the resolution appropriating \$16,000 for the expenses of the inauguration of President-elect Taft.

Brother Is Ill.

Mr. William Flowers, baggage master at the Union station, received word from Washington City this morning that his brother, Mr. Pres. Flowers, who lives there, is dangerously ill and that hopes for his recovery are small.

Loose Leaf Sales

Sales at Bohmer's loose leaf warehouse this morning were 50,000 pounds of tobacco. The bidding was strong and the sale price was satisfactory with the growers. The prices of the tobacco ranged from \$4.00 to \$5.60 a hundred pounds. There were no repetitions at the sales this morning. Good sales are promised for tomorrow morning.

ANOTHER BALLOT AND HOPKINS IS STILL FAR AWAY

Springfield, Feb. 11.—Hopkins 55 and Stringer 55 is the result of the senatorial ballot today.

Resolution Passes.

Springfield, Ill., Feb. 11.—After wrangling for two hours this morning with numerous speeches on both sides of the question and the offering of various substitutes and cross motions, the houses finally adopted the joint resolution for the appointment of nine members from the house and an equal number from the senate to consider the contest petition an Adlai E. Stevenson against Governor Deneen.

The resolution will now go to the senate for its concurrence. The pending question when the matter was taken up this morning was the motion of Mr. Reynolds, of Wisconsin, to lay the resolution on the table. This was lost by a vote of 78 to 60, the Shortleaf Republicans voting with the Democrats. Mr. Shanahan, of Cook county, then offered a substitute to the effect that the committee be appointed shall limit its investigation to determining whether General Stevenson has made a prima facie case in his petition. If the committee so finds in its report, which it must make by March 2, the house and senate will be asked to pass a further resolution giving the committee the power to send for and recount the ballots.

CHAIRMAN BERRY WILL REHEAR THE CALLOWAY FIGHT

Law and Order Element Making Effort to Control Third District.

Judge Cook's Success is in the Balance.

PRIMARY OR A CONVENTION

Murray, Ky., Feb. 11. (Special.)—A rehearing of the controversy over the chairmanship of the Calloway county Democratic committee has been granted by W. A. Berry, state central committeeman for the First district, who will reopen the case some time in March. Under a previous ruling of Chairman Berry, N. L. Chrisman is now the chairman of the Democratic committee while John H. Keys is making a contest for the place.

The controversy has an important bearing on politics in the Third judicial district, where the law and order element is making a supreme effort not only to gain the judicial offices but the machinery of the Democratic party, also. Chrisman is supported by the law and order folks and should the opposition again fail in their effort to unseat him, the Democratic executive committee of the Third judicial district will stand two and two, as it is understood Chairman Chilton, of Christian county, will stand with the law and order forces. If Keys should be seated Judge Thomas Cook will be in control of the committee.

In case of a tie, as would exist with Chrisman seated, it is understood that the state central committeeman of the district would referee.

The Controversy.

The controversy over the Calloway chairmanship began with the election of precinct committeemen. The opponents of the law and order element control the majority of precincts in the county and elected 7 of the 13 precinct chairmen. Through an oversight 5 of these failed to bring proper credentials when the meeting was held to elect a county chairman. The retiring chairman appointed a committee on credentials which made a report in accordance with the facts and the retiring chairman refused to recognize the vote of the members having no credentials. This precipitated a bolt and the five members without credentials and two others left the meeting and held an election, naming John H. Keys, while the other six members who remained at the meeting, elected N. L. Chrisman.

Mr. Berry's Ruling.

Mr. Berry as state central committeeman held that the former chairman was right in refusing to allow the members without credentials the right to vote on the report of the credentials committee, and that the action of the two members who left the committee and met with the unseated members, was irregular. Berry therefore recognized Chrisman as chairman.

If the law and order element controls, a convention will be called to nominate a candidate for circuit judge, and if the other side controls a primary will be held.

Judge Cook, who is holding court in Trigg county, came to Murray yesterday and attempted to secure an agreement from Chrisman to have Berry take up the rehearing at once, instead of waiting until March, but it is not likely that the agreement will be made, as Senator Conn Linn, one of the leading attorneys for Chrisman, is now in Texas.

Cook may not be a candidate for re-election if a convention is called. He has called in speaking appointments made sometime ago and says he will not make any speeches until the committee meets.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is in reality an internal inflammation—a diseased condition of the blood cells which supply the nourishment and strength necessary to sustain our bodies. Uric acid, an irritating, inflammatory accumulation, gets into the circulation because of physical irregularities, and then instead of nourishing and invigorating the body, the blood irritates and inflames the different nerves, tissues, muscles and joints, because of its impure, acid condition. The pains and aches and other disagreeable and dangerous symptoms of Rheumatism can never be permanently cured until every particle of the cause is driven from the blood. S. S. S. does this because it is a perfect blood purifier. It goes down to the very bottom of the trouble, purifies and cleanses the circulation, invigorates the blood, and completely drives Rheumatism from the system. Plasters, liniments, soothing lotions, etc., may be used for the temporary relief and comfort they bring, but a cure cannot be effected until S. S. S. has removed the cause. It frees the blood of every impurity and makes it a rich, health sustaining fluid, to bring permanent relief and comfort to those who suffer with Rheumatism. Book on Rheumatism and any medical advice free to all who write.

DEEMAN THOMPSON IMPROVING.

Crisis in the Illness of Veteran Actor Is Past.

West Swaney, N. H., Feb. 11.—The condition of Deeman Thompson, who is ill with pneumonia at his home here, showed improvement today and his physicians said that they believed the crisis of the disease had been safely passed.

Kansas City, Mo., Feb. 11.—The condition of Miss Blanche Walsh, the actress, who is ill at the University hospital in this city, was unchanged today. The attending physician said that Miss Walsh had not spent a very good night, but he noted no change for the worse in her condition.

Middle-Parted Hair.

"It will soon be the fashion again to wear the hair parted in the middle," said the boss barber in a downtown shop. "For a good many years the style has been dictating a side part, but now the middle is winning its way back. Leading actors, I guess, are the cause of the change, although I am not sure of that point. Nevertheless, I notice that a great many stars part their hair in the middle. At any rate, we are getting a number of requests from young chaps to train their hair for a middle part, so I guess it is coming, all right."

Enormous Popularity.

"The Lion and the Mouse" is talked about and written about very close to the heart of every good American. It illustrates the power exercised by the use of enormous wealth in connection with American politics. John Burkett Ryder, financial king of American money, and whose very god is power and wealth, sees fit to have impeached a judge of the supreme court of the United States, because this judge has rendered decisions adverse to the questionable business interests of both Ryder and his coterie of friends. He uses the senate as a place to put through his business deals. Against this colossal character, Mr. Klein has pitted a fine type of American womanhood in the way of Shirley Rossmore, the daughter of the judge, who, under an assumed name, enters Ryder's house and here, while writing his biography, she fights the money king indirectly and tries to save her father's honor. For the interpretation of the piece here, Mr. Harris will offer a company of selected players.

"The Rivals."

No comedy of recent years has equalled Richard Brinsley Sheridan's merry masterpiece, "The Rivals." In it the pungency of the witty lines have always scored and the characters have been made famous by and have made famous many of the foremost actors on the English speaking stage. Every discriminating theatergoer knows of the vaillant "Bob Acres," the bloodthirsty "Sir Lucius," the mistress of language, "Mrs. Malaprop," and the bombastic "Sir Anthony Absolute." Joseph and William W. Jefferson will present "The Rivals" here soon.

"The Land of Nod."

"The Same Old Moon," which created such an interest in the extravaganza, "The Land of Nod," is one of the most popular melodies ever heard in a musical comedy. The song as rendered in the production has inspired stage nature to perform a miracle in scenic effects. At a timely moment the moon opens its outer surface and that legendary personage, "The Man in the Moon," appears. Then, as if yielding to the complete eclipse of the nine wonders of the earth, he floats out upon the ether and slowly descends to the stage. The illusion of the audience is complete. For aught the auditor knows "The Man in the Moon" has been endowed with a new form of air motor which defies gravity. The first thought is that of x-rays. No gentle reader, not wires. Instead an invention purchased at an enormous cost to Samuel E. Rork, producer and manager of this stupendous mirage of fairyland. It would be a costly tale to explain how it is done and might dim, in a measure, the delight in witnessing it. There are 20 numbers in "The Land of Nod," all of the "whistling kind," and a chorus of 60 winsome maids that can sing and dance them.

"Well, Kipling said that one lovely, cool morning at Simla he was presented to a 'grass widow.' They call those ladies 'grass widows' whose husbands are detained by work in the hot cities of the plains.

"She was awfully pretty and charming, and as they talked together in the pleasant coolness, Kipling said: 'I suppose you can't help thinking of your poor husband grilling down below?'

"The lady gave him a strange look and he learned afterward that she was a real widow."—New York Times.

STOMACH AGONY.

Abolish the Cause and Misery and Distress of Indigestion Will Vanish.

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness, sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Ml-o-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to Gilbert's drug store this very day and get a large box of Ml-o-na tablets, and start themselves on the right road to health at once.

The price of Ml-o-na tablets is only 50 cents, and Gilbert's drug store guarantees them to cure indigestion, or money back.

Thin or lean or scrawny people will find in Ml-o-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

California Kills School Segregation Bill.

Roosevelt Policy Wins and Only Measure Left is Proposition Covering Census of Japanese in California.

GILLETTE IS HIGHLY PLEASED

Sacramento, Cal., Feb. 11.—Yielding to pressure brought to bear by President Roosevelt and Governor Gillette, of California, the assembly retired from its previous position on the anti-Japanese matters by reconsidering the former vote on the segregation of Japanese students in the public schools and finally rejecting the measure 41 to 37.

The efforts of the supporters of the bill further to reconsider was lost by a tie vote and the assembly is now clear of any anti-Japanese measure objected to by national administration.

The fight for the suppression of the bill was won only after many hours of heated debate on the floor. The struggle started at 10:20 yesterday morning, on presentation of a resolution by Assemblyman Trause, of Los Angeles, affirming the right of the state to govern its schools, but without withdrawing the Japanese segregation measure because of the president's objection to it, lasted until 4 o'clock, when Grove L. Johnson's motion further to reconsider was defeated on a tie vote of 38 to 38.

The school bill is still to be considered in the senate, having been presented there by Senator Caminetti, but there is little chance that the measure will be approved when brought up.

"I am highly pleased with the action of the assembly," said Governor Gillette. "The east has been deeply concerned in the measures pending here and I feared that if the anti-Japanese legislation were passed at this time it would have a disastrous effect."

The anti-Japanese forces in the assembly were led by Grove L. Johnson, the author of the segregation bill on which the fight hinged, and Louis W. Julliard, Democratic floor leader, while the opposition was directed by Trause and Melrose.

BEAUTIFUL HAIR FROM
A HOME-MADE TONIC.

Every woman desires beautiful hair and a good tonic is just as much a necessary adjunct to the toilet as is soap or tooth powder. But good hair tonics are expensive. Here is a recipe for a home-made preparation that will give as good or better results than the highest priced ready-made tonics and not cost half as much. Mix half a pint of alcohol with half a pint of water, add an ounce of Beta Quinol. Simply shake well together and your tonic is ready for use. If you prefer you can use a pint of imported bay rum instead of the alcohol and water. Beta Quinol used daily will give vitality, health and attractiveness to the hair. Any woman who appreciates the value of luxuriant, soft and glossy hair cannot afford to be without this almost magical quinine hair tonic. Any druggist will sell you the Beta Quinol and alcohol or bay rum.

Trause's resolution opened the debate and the fight was really made on this measure, the reconsideration motion not being put until there had been a lengthy argument. Johnson repeated his defiance of the president and called upon the assembly to "stand by its guns." He was answered by Trause and Melrose, every phase of the opposition being reviewed.

Trause suddenly withdrew his resolution and the fight centered on the reconsideration motion presented by Walter Leeds, of Los Angeles. This was finally forced to a vote and carried, 42 to 34. The roll call on the bill itself immediately followed and it was rejected 41 to 37.

Johnson was at once on his feet with a motion again to reconsider, which resulted 38 to 38 and the motion was lost.

Gillette said the next matter to be taken up by the assembly would be the proposed appropriation of \$10,000 for compiling a census of the Japanese in California. He said if from the data so gathered it were found necessary to do so, congress would be urged to enact an Asiatic exclusion measure.

"Under the agreement between Japan and our government," said Gillette, "the former is pledged to restrict immigration as much as possible. If Japan had grounds for abrogating this arrangement and decided in view of unfriendly acts upon the part of the California legislature to remove these restrictions upon the immigration of her people, all our ports would be open to the latter. If then we went before congress and asked the east for support a general Asiatic exclusion law, the latter might advance an adverse argument that we had the situation well in hand at one time, through federal negotia-

tions, and lost our advantage by the acts of our legislature against the wishes of the president and the secretary of state."

Roosevelt is Thankful.

Washington, Feb. 11.—The president received a telegram from Governor Gillette, of California, and Speaker Stanton, of the assembly of that state apprising him of the fact that the school segregation bill was killed in the assembly. To the governor the president sent this reply: "Accept my heartfelt congratulations. All good Americans appreciate what you have done."

MRS. LEMP IS
MUCH FATIGUED

Sensational Photograph is Ruled Out.

The Evidence Shows Lemp to Be a Very Strenuous Sort of Husband.

CHAUFFEUR GIVES TESTIMONY

St. Louis, Feb. 11.—Traces that she had spent a sleepless night were apparent about the eyes of Mrs. Lillian Handlan Lemp, wife of William J. Lemp, Jr., the millionaire whom she is suing for divorce, alimony and custody of her child, when she took the stand. During the hour and a half she was on the stand she appeared very nervous, in great contrast to her calm, collected demeanor of the day before.

Hundreds of people gathered early about the court house before the trial began and a special detail of police to preserve order was necessary. In the throngs women fought with men to gain admittance. By 1 o'clock hundreds filled the corridors of the court house and thousands lined adjoining sidewalks, all around the court house square, waiting to gain a glimpse of Mrs. Lemp on her way to luncheon.

The day was taken up following the conclusion of the testimony of Mrs. Lemp with the examination of servants, who corroborated various charges of indignities made by Mrs. Lemp. Mrs. Lena Corey, former landlady in the Lemp home, testified that Lemp entertained women unknown to her in the house while Mrs. Lemp was out of the city. She also testified that she had seen a strange woman in the bath room.

The court overruled further questions regarding the photograph showing Mrs. Lemp smoking a cigarette, saying further explanations were not material. Regarding the assault said to have been made upon her in the bath room by Lemp, Mrs. Lemp said she told no one of it for shame.

She testified that her husband fired his revolver in his room; that during the summer of 1903, while she was at the Chicago Beach hotel, Lemp unexpectedly appeared one night, going to her room and without speaking a word looked under the bed, pushed aside clothes in the wardrobe and looked into the bath room; that Lemp denied her the use of his automobile; that during the summer of 1903, when Lemp alleges her sister, Bella, visited their home against his wishes, the sister was attending school in Washington; that she did not know the true nature of the ante-nuptial agreement which she signed, and Lemp gave their child a copy of Puck in which appeared a picture derogatory of the Catholic church.

A former chauffeur testified to having driven Lemp with other women to summer parks, as well as to his home; that on one occasion he drove Lemp to a place near Lake and Garrison avenue, near the home of Mrs. Howard, a newspaper woman, and that the next day the first story in which Mrs. Lemp was referred to as the "Lavender Lady" appeared.

Other former servants in the Lemp household testified to Mrs. Lemp's devotion to her husband and child; that combings of women's hair were found in the rooms at the Lemp home during Mrs. Lemp's absence and that women were heard to sing "Treat Us All Alike Baby" in the Lemp home.

The deposition of Gustav D. Schmidt, assistant manager of the St. Regis hotel, New York, was introduced, the substance of which was that Mrs. Lemp always conducted herself properly during her visit to a Palm Beach hotel, where he was clerk; he admitted spending an afternoon with her at a tennis game and was interested in her and was the first to inform her that a detective was shadowing her.

Danderine

GROWS HAIR
and we can

PROVE IT!

A lady from Minnesota writes:
"As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grows, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp on which hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when dryness occurs the scalp has simply lost all its vitality, leaving waiting for the hair to feed upon a plant or even a tree would die under similar conditions.

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowledge of Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair oils or juices of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 2-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

PADUCAH HIGH

WILL CHOOSE ITS ORATORICAL REPRESENTATIVE.

Contest Will Take Place in Auditorium of the School Tomorrow Night.

Tomorrow night at the High school the primary oratorical contest for the selection of a representative at the inter-high school debate at Madisonville will be selected. A large audience is anticipated and arrangements have been made for filling the auditorium to overflowing. Prof. W. H. Sugg is selecting the judges, but will not announce their names until just before the contest.

Owing to the length of the program there will be but a short musical program, in which several High school girls will play. The subjects of the orations are: "The Evil of the Hour," Edwin Lightfoot; "The Silent Brigade," Edwin Mitchell; "The Statesmen of Kentucky," Marvin Sills; "The Old South," Miss Alice D. Foster; "Woman, the Home Builder," Miss Clara Smith.

SCIENCE SCORES AGAIN.

A Preparation That Will Destroy the Dandruff Germ Discovered.

Finally the scientific student has discovered a certain remedy for dandruff. When it first became known that dandruff is the result of a germ or parasite that digs into the scalp and saps the vitality of hair at the root, causing falling hair and baldness, biologists set to work to discover some preparation that will kill the germ. After a year's labor in one laboratory, the dandruff germ destroyer was discovered; and it is now embodied in Newbro's Herpicide. It prevents baldness, stops falling hair and speedily eradicates dandruff. "Destroy the cause, you remove the effect." Sold by leading druggists. Two sizes, 50c and \$1.00. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.—R. W. Walker Co., Special Agents.

At the oratorical contest at Madisonville February 19 it is intended to accompany the High school orators with a bunch of rosters. Special rates will be secured for the party. Prof. W. H. Sugg, Miss Adah Branton, Prof. W. A. Evans and probably other members of the faculty will intend to make it interesting for the other schools.

It is suspected that the sugar trust has a false bottom in its sand digger.

Too bad Caldwell county cannot be made to pay for the tobacco warehouses burned at Princeton.

It would be worth \$4,000 a year for Senator Philander C. Knox to have paired on the salary increase bill.

The groundhog is missing a lot of blessed sunshine, but he is getting just what he deserves for being afraid of his shadow.

Mrs. Lemp testified at St. Louis that her husband contributed nothing to her support, except \$800 a month, out of which she had to buy her clothes and pay all expenses.

If a man's real and personal feelings were assessed at what he holds them, when he makes his return, the city would have plenty of money.

Lone Oak and Arcadia much regret that the county magistrates did not inspect concrete high schools in Cincinnati, Toledo, Cleveland, Buffalo, New York City, Brooklyn and Washington on their junket.

Secretary Bacon informed the minister from Panama, that the government is not responsible for what Congressman Rainey says. Congressman Rainey is not considered responsible, either; so there the matter rests.

The press of this country worked off most of his "yellow peril" stuff a year ago. The Japanese press would do well to emulate our example. If the state of California tries to override the treaty making powers of the federal government, we can take care of that without the Japanese butting in.

THE CELESTIAL HARMONY.
 Dr. Guy Carleton Lee metaphorically described this nation as a great orchestra under divine leadership. Some players are willfully perverse; most have not yet mastered their instruments; the harmony is broken by frequent discords; but every effort brings the great orchestra nearer perfection. It is useless to attempt to follow his word painting, but he concluded significantly that "this is a period of rehearsal", not the concert performance, and in that sentence he expresses the idea that is slowing developing in the brain of the nation. The age of the pioneer in America is not yet over.

We are beginning to realize that we have as yet an imperfect Democracy. We are not to be content with

our forefathers won. We have yet things greater than they ever dreamed of, to perform. We begin to understand that it was not the constitution, but the spirit of the Declaration of Independence that was divinely promulgated. The constitution was the grudging compromise made by suspicious representatives of jealous states for their mutual protection. The spirit in which the constitution was conceived matured in the Sixties in the Civil war.

That constitution has served its purpose well and will continue to do so. It has been twisted and turned in every direction to suit the varying purposes and views of succeeding generations. It is simply a matter of interpretation.

We are gradually evolving a government founded, not on the animosities of rival states, but on the brotherhood of man. To us state rights is only a name. There probably isn't a man living, who believes in the theory. We have come to the conclusion that state legislatures are greatly interfering with the best development of our municipalities, but we do not speak of "city rights". We speak of local self-government, and that is what we mean when we say "state rights"; a very different thing from that over which our fathers shot one another.

That there will be fundamental changes in the form of government, we doubt; but as our courts swing, like a well balanced magnetic needle, to indicate the materialistic tendency of an epoch that is passing; so our courts are slowly responding to the awakening impulses of humanity in this country.

We are not afraid of one another as were the framers of the constitution. We do not fear the people—ourselves—as has every generation that has gone before us. We trust ourselves, we trust one another, and we are learning to play our instruments, whether we think so or not. Harmony is a law of God.

SOME STORIES AROUND TOWN

Don, the fine bird dog of Mr. Roy Dawson, has formed a friendship with Mack, the horse of Fire Chief Wood, as firm as any two college chums. Whenever Mack is near the fire station Don may be seen close by, and he will jump around the fire horse and play. Recently the horse was sick, and was kept in the stall for a week, but Don never deserted his friend, and for several hours of the day would remain in the stall with the horse. Don appeared distressed that Mack was sick, and apparently expressed his delight when the chief's horse was able to be in harness again. The horse and dog appear to be inseparable companions, and while the horse is on the street, frequently Don may be seen following close by.

"Can't see fur ml life, why 'tis I is fined \$30 and de cost fur fittin'," said a burley coon who had been yanked in the police court for fighting. TELL OF BIG RAILROAD MERGER

Witnesses for Government Heard in Federal Case at Cincinnati.

Cincinnati, Feb. 11.—Seeking to prove that joint agencies and joint freight solicitors for the Union and Southern Pacific railways were indications of a merging of interests contrary to law, the federal government put 11 witnesses on the stand in the hearing before Special Examiner Sylvester G. Williams. There was much similarity in the testimony, the apparent effort being to increase its effectiveness by the multiplicity of witnesses to the same effect.

On behalf of the railroads the attorneys sought to bring out that the lines were not actually covering the same territory, except west of Ogden, asking for expressions from witnesses in support of that view.

LULA RAN

BUT SHE WAS CAUGHT AND SENT TO JAIL.

Graves County Farmer Enjoys Hospitality of Colored Home at Great Expense.

R. E. Johnson, a Graves county farmer, had some trouble last night with tobacco money he received yesterday. Johnson was relieved of a roll of bills containing about \$70 and got \$60 of it back. Lula Helms and her husband, Will Helms, colored, who live at 916 Kentucky avenue, were bound over to the grand jury this morning under \$300 bail on a charge of grand larceny for taking Johnson's money. The Graves county farmer received about \$65 yesterday for tobacco he had sold and with the money he brought with him he had \$80. After making a few rounds in the city Johnson went out on Kentucky avenue to the Helms home. He was there probably a half hour and then went over to Ninth street and Kentucky avenue to buy some hot tamales and discovered his money was gone. He went back to the house and asked Lula for his money, and instead of getting his roll, the woman threatened to have him arrested. Johnson found Patrolman Clark. Both men then went after the money and after a little argument the woman went to the door and called her husband, who was across the street, and he produced \$60 of the money and the other \$10 is still missing.

In the trial this morning Lula Helms declared that Johnson lost his roll and that she sent her husband out with the money to return it to its owner. After the money was turned over to the patrolman the woman excused herself for a minute and took a sneak out the back door and ran to Tenth and Husband streets before she was caught. Patrolmen Clark and Gilliam made the arrest. Several other people have lost their money in just the same way in that neighborhood.

COUGHED ALL NIGHT.

THI This Recipe Was Tried. Cure Followed in 5 Hours.

A prominent medical man, who suffered with a severe cough and cold on the lungs, often being kept awake all night, and weakened by loss of sleep, finally discovered a simple formula which will cure any cough in five hours by the clock. It is a laxative tonic cough syrup which can be made at home by any one and the formula is here given for the benefit of those who pass sleepless nights in painful paroxysms. Those who have tried it say it is magical, and heats any high-pitched, slow-acting cough medicine ever sold.

Mix in a bottle, one-half ounce fluid wild cherry bark; one ounce compound essence cardiol and three ounces syrup white pine compound. Take twenty drops every half hour for four hours. Then take one-half to one teaspoonful three or four times a day. Give children less according to age. This will tone up and rid the system of deep-seated coughs every time.

Slays Minister and Himself.
 Public Assassination for Clergyman Lawyer in Divorce Suit.

Hamilton, O., Feb. 11.—Rev. S. P. Kellum, 48 years old, a Methodist minister, a lawyer and editor of the College Corner News, was assassinated in the main street of College Corner at 7 o'clock last night by Clyde Handley, 25 years old, of the same village, who then committed suicide. Handley met Kellum in front of Clark Harkley's drug store, and, drawing a revolver, fired three shots. The third shot struck Kellum in the left temple, killing him instantly. Immediately after the murder Handley ran to his mother's home, where he killed himself with the same revolver with which he had committed the crime. It develops that Handley's wife recently sued him for divorce and that Kellum acted as her attorney. Kellum leaves a widow and seven children. The shooting took place ten feet across the Indiana state line.

Trustee's Notice of Sale.
 To the Creditors of Thomas C. Leech, Bankrupt:

This is to notify you that pursuant to the foregoing order of sale in the case of Thomas C. Leech, bankrupt, I shall at the county court house door, in Paducah, Ky., at 11 o'clock in the forenoon, on the 8th day of March, 1909, sell at public auction to the highest bidder, all of the real property described in said order, according to the terms, upon the conditions, and in the manner therein provided.

Witness my hand this 4th day of February, 1909.

H. V. SHERRILL, Trustee.

Activity on Frontier.

The object for which the association is working is to obtain a living wage for the shop girls of this country. Mrs. Grenfel appeals directly to the women of America to assist the association.

A Daring Hold-Up.

Chicago, Feb. 11.—By placing red danger signals on the tracks of the Chicago & Western Indiana railroad four robbers held up a freight train on the Monon road and while the crew were trying to ascertain the trouble, stole \$2,000 worth of property. The theft was not discovered until the train reached Hammond, Ind. The police who were sent to the scene traced the robbers to a barbed-wire house, where, after an exchange of revolver shots, the men were arrested.

Weak Little Boys

may become fine strong men. Some of the strong men of to-day were sickly boys years ago. Many of them received

Scott's Emulsion

at their mother's knee. This had a power in it that changed them from weak, delicate boys into strong, robust boys.

It has the same power to-day. Boys and girls who are pale and weak get food and energy out of Scott's Emulsion. It makes children grow.

Belief About Washington That He Will Get War Post.

Washington, Feb. 11.—The nomination of John W. Dickinson, of Nashville, Tenn., by President Taft to be secretary of war appears to be regarded here as a certainty in several quarters. The belief is very general in Nashville that he will succeed Secretary Wright. Mr. Dickinson is a Democrat. He is the general counsel of the Illinois Central and is credited with a salary of \$40,000 a year. An secretary of war he would get \$12,000.

The selection of Mr. Dickinson is regarded here as meaning that Secretary Wright will not have any cabinet place, because it is scarcely likely that there will be two southern men in the Taft cabinet.

Wright will have his pick of the ambassadorial posts.

DISCOVERED: A MAN WHO HAS SPANKED ROOSEVELT.

Greely, Col., Feb. 11.—Ernest Minckwitz, formerly chemist in the Windsor sugar factory, enjoys the distinction of being the only man in Colorado who spanked Theodore Roosevelt when the latter was a boy.

Roosevelt was 14 years of age. His mother placed him in the Minckwitz family at Dresden, Germany, to learn German. One day young Roosevelt put on some boxing gloves and gave the German lad a punch, saying:

"This is the way we do it in America."

The stout German lad took him across his knee and administered a spanking, saying:

"This is the way we do it in Germany."

Minckwitz says that three years ago he was at the white house and President Roosevelt recalled the incident.

TWO DROWN IN LEITER MINE.

Panic Caused by Explosion in Workings at Zeigler.

Zeigler, Ill., Feb. 11.—Two miners, M. Kimball and Lawson Palmer, were drowned in a wild scramble for safety in the Leiter coal mine today, fourteen others escaping without injury.

The panic was caused by a slight explosion in the workings, which did comparatively little damage.

Pottsville, Pa., Feb. 11.—Four men were smothered today by a rush of culm at the St. Nicholas washery of the Philadelphia Coal and Iron company. They had dug a large hole at the base of the culm pile, which is composed of mine refuse, when a large section of the bany slid down, completely burying them. A big rescuing force was immediately put to work, but the men were dead when reached.

POOLING WITH NATURE.

Doubts as to Whether Hybrid-Makers Should Change Nature's Methods.

The "lilies" of the field tell hot, neither do they spin. But their time will come. Some day the nature provokers will have lilies hitched two abreast and pulling at the tops of field grass to make it grow faster. Why not when Luther Burbank robs the meritorious prize of his backbones and the cactus of its spine and when a man in Gardner (in New England, where nature dars the hoe of the farmer and turns it aside with a wicked edge) evolves a hybrid which is neither a cucumber nor an orange, but has something of both? Why should a cucumber be like an orange, or an orange like a cucumber? There is nothing more effective than an unadulterated, unfilled cucumber. There is nothing more popular than an orange. The folly and danger of taking liberties with nature was long ago pointed out in the case of the apple which is reported to have fallen on the upturned face of the discoverer of the law of gravitation—whence the discovery. If the apple had been a pumpkin or a watermelon nature's hint might have been overforceful, and thus impudent. And in these days there is imminent danger of pumpkins and watermelons growing on apple trees. If nature disturbers really want something to do why don't they tackle the problem of evolving a seedless pomegranate?—Boston Advertiser.

SCHOOL CHILDREN

WILL CONTRIBUTE BOWER OF FLOWERS TOMORROW.

Kentucky Youth's Tribute to Memory of Abraham Lincoln Proposed.

Frankfort, Ky., Feb. 11.—The school children of Kentucky will participate in the memorial services for Abraham Lincoln at Hodgenville on Friday and it is probable that many floral wreaths will be sent by the school children to decorate the old Lincoln cabin in Larnie county. Prof. J. G. Crabbe, superintendent of public instruction, today issued a call to the children of Kentucky to have them send flowers to the Lincoln farm. The call is as follows:

"To the schools of Kentucky: It has been brought to my attention that the school children of the state might desire to participate in the Lincoln centenary celebration at Hodgenville, and I can think of no more suitable or beautiful tribute than a floral decoration or wreath to be placed on the Lincoln birthplace cabin on February 12.

"I trust that very many schools of this, Lincoln's native state, may desire to act on this suggestion and that they will at once make arrangements to send to Hodgenville some token of their esteem to the memory of this great Kentuckian. The admiration and love of the youth of the state for this great statesman should make itself manifest in such a floral display as to convert the logs of this cabin into a bower of beauty."

In the British museum is preserved the oldest specimen of pure glass which bears any date. It is in the shape of a lion's head, having on it the name of an Egyptian king of the eleventh dynasty.

WORST FLEA OF ALL

Black Ones Jump Higher and Leap Further than the Others.

The light-brown flea discovered in San Francisco—the flea that takes along the bubonic plague as hand-baggage—may be an amiable and a companionable little fellow—doubtless he has his friends—but when the government flea experts assert that he can leap higher and jump farther than any other flea, they have gone too far. Like Col. Jack Johnson, the pugilist, the black flea holds the record. And no light-brown flea that ever bit can equal him in the athletic field. No one better knows his capabilities than he who has been intimately associated with the black flea. The black one is a wonder, as perhaps you may know. He can in a moment transform the most peaceful house-dog into a howling dervish. The simple mention of his name can make a lady do a skirt dance that would make Genee despair. His mere casual visit to a decoy in good standing will bring forth the old scratch.

As for leaping, jumping, hurdlings, catch-as-catch-can alrship feats—where can you find his equal? In fact, where can you find him himself? The light-brown flea is an immigrant, an alien, and is unwelcome to our shores. He may as well understand at once that he will be snubbed by our first families. And if the native-born black flea gets out his razor and gives one long leap—the new flea will have to flee.—Baltimore Sun.

WOOD FROM EACH STATE IN MAP OF STEAMSHIP.

Chicago, Feb. 10.—J. W. Dennis, cabinet and cabinet maker, will take to his shop in Harvey this week 46 blocks of wood, representing every state in the union. The blocks, which are a foot square and an inch thick, have been sent by the governors of the respective states to form a large map of the nation, which will be placed in the cabin of the new steel steamboat United States, to be launched at Manitowoc, on Washington's birthday.

Indiana sent cherry, California redwood, Massachusetts chestnut and pine formed in one sample, Mississippi red gum, Missouri and Arkansas, Oak, Oklahoma Walnut, and the District of Columbia historic wood from the navy yard at Washington.

A Sharp Retort.
"My dear," said a thin little Brighton man to his wife, "this little paper says that there is a woman down in Devonshire who goes out and chops wood with her husband."
"Well, what of it?" I think she could easily do it if he is as thin as you are. I have often thought of using you to peel tomatoes with."
The thin man laid down his paper with a sigh that sounded like a squeak of a penny whistle.—Tiddits.

INSPIRING WORDS

OF PATRIOTISM

Dr. Guy Carleton Lee "The Nation Triumphant".

Declares This Age Is Morally and Spiritually in Advance of Predecessors.

COMPARISONS IN HISTORY.

In his concluding lecture of his series, Dr. Guy Carleton Lee painted an optimistic picture of the times and the future, which aroused the patriotic ardor of his hearers and sent them forth, perhaps, better citizens. He measured the times and the nation by every standard of comparison with the past and with contemporaries, and concluded with a fancy portrait of a great continental America, free, extending from ocean to ocean, untouched by the ancient jealousies of other lands, possessing resources that make her independent, and men and women the like of whom have never before populated the globe, standing aloof, while China and Japan join the nations of the world, and Africa becomes the fighting ground of the races, and dynasties crumble and geographical lines are wiped out.

Moral Advance.
Morally, he said, this generation stands ahead of any of its predecessors. Even in the puritan days drunkenness and immoral practices were common, a signer of the Declaration of Independence was a smuggler, a senator was sent to prison for bribery before congress was ten years old. In the Burr-Hamilton campaign in New York bride givers sat at tables in the streets and openly bartered for votes.

In the matter of material welfare he discussed the apparently small items, such as ice, fly screens, etc., and showed how they entered into the economy of things to make this age better than its predecessors.

He quoted Ambassador Bryce, of Great Britain, who after 25 years returned to find the American citizens living more comfortably and more normally than any other people, and found them morally advanced in a quarter of a century, leading all peoples, and developing an estheticism, that is evidenced in the insistence on beautiful as well as comfortable surroundings.

The exposure of corruption, rather than being considered an evidence of the decadence of the times, he took to be an indication of moral regeneration. "A free country cannot wash its dirty linen in private," Dr. Lee said. "And its linen is generally the better washed for the publicity."

Dr. Lee declared the puritanical spirit has come down to the great mass of the American people in its purity and strength. The demand for reform and justice does not arise from the monopolist; nor from labor, even skilled labor, but from the virtuous business and professional men, who have always realized the encroachment of selfish interests, and the spirit of the times is being promoted by organizations, especially women's clubs.

A little later in the game borrowed money begins to look like borrowed trouble.

A man seldom gets very angry when he has only himself to blame.

CAST ALUMINUM PLATE CO.

(Incorporated.)

Factory, 405 Fraternity Bldg., Paducah, Ky.

This company was organized for the purpose of making for the dentists in all parts of the United States, pure aluminum plate, cast for artificial teeth, an invention of Dr. E. Stamper, of this city. These plates have proven a great success among the dentists also. Dr. Stamper has been using them in his own practice for the past year with marked success. From these facts we are sending these cast aluminum plates to the dentists in the states of Alabama, Louisiana, Georgia, Tennessee, Kentucky, Missouri, Vermont, Maine, California and others.

Now these plates being such a success with the dentists at large, we are going to add to our work the local trade—that of Paducah and vicinity.

We have not room here to tell of all the good features of these plates, and we have for our consulting dentist Dr. Stamper, the inventor of the new process, who will do all of our office work. Call at his office, 203-205 Fraternity building. Office hours 8 to 5:30 daily, Saturday nights 7 to 9. Both telephones.

The Knock-out Blow

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but to the stomach we are utterly indifferent, until disease finds the solar plexus and knocks us out.

Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures weak stomach, indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol—pure, triple-refined glycerine being used instead.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, cloth-bound. Address Dr. Pierce as above. Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

ECZEMA A GERM DISEASE

Myriads of Microscopic Animals In-
 fest Skin of the Sufferer.

When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing festers, thick scales and that terrible itch. The germs multiply faster than Nature can throw them off.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Dosing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema; that is also why salves which do not penetrate can do no permanent good.

Ordinary oil of wintergreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. Prescription) this wash will build up the tissue of the skin and promote its healthy growth, giving Nature a chance, while killing the germs faster than they can multiply.

Druggists R. W. Walker Co., of this city, recommend D. D. D. Prescription, also D. D. D. Soap.

Home Course In Modern Agriculture

X.—Some Insect Pests

By C. V. GREGORY,

Agricultural Division, Iowa State College

Copyright, 1909, by American Press Association

AMONG the enemies which the farmer has to combat perhaps none are more troublesome than insects. Nothing is more aggravating than to have a promising crop of fruit or grain attacked by a horde of "bugs" and greatly injured if not entirely ruined.

Insects, like weeds, are very difficult to deal with if you go at them one at a time, but if properly managed they can be easily held in check. From the standpoint of the damage they do, insects may be divided into two classes—those which attack field crops and those which are injurious to fruit and garden crops.

There are a number of insects which attack corn. While these are seldom present in large enough numbers to destroy any considerable part of the entire crop, the money value of the damage they inflict on the corn grown on a quarter section each year amounts to no small sum.

One of the most important of these pests is the corn root worm. The eggs, which are laid in the cornfield during August or September, hatch during the next June or July. The worms when full grown are about one-third of an inch long and as big around as a pin. They bore up inside the roots, injuring them so badly that the growth of the plant is seriously checked. Often, too, the roots are so weakened that the corn blows down badly. Some time during August the worm goes through a transformation called pupation, which changes it into a small light green beetle. This beetle feeds on the silks and tips of ears and lays eggs for the next year's crop of worms.

Another insect which lives on the roots of corn is the root louse. These lice are very small and helpless. They are kept through the winter in the egg stage in nut hills. In the spring after they hatch they are placed on the corn roots by the ants. The ants are very fond of a sweet fluid which is secreted by the lice, and they take care of them for this purpose.

Other insects which do more or less damage to the corn crop are the stalk borer, wireworm, white grub, bill bug, cutworm, etc. These insects live and multiply in grass land and from there find their way into the adjoining cornfields. They do the greatest damage, however, when the grass land is plowed up and put into corn.

The damage from nearly all insects affecting corn, small grain or grass can be readily prevented by a good system of rotation. This is especially true if clover is used, since such insects as cutworms and grubs do not work to any extent on clover. The frequent plowing of the ground and change of crops where a rotation is followed are fatal to most insects. Damage from these pests will be still further reduced if the soil is kept so well supplied with plant food that the plants can get a quick start in the spring. Treated in this way, they are more vigorous and better able to withstand insect attacks.

These remedies, with the exception of the last, cannot be applied to or-

FIG. XIX.—CORN PLANTS INJURED BY ROOT WORM.

chard and garden crops, since these must be grown on the same land year after year. For the insects affecting these crops spraying is the best remedy.

The principal insect that attacks the apple is the codling moth. These insects pass the winter in a ball of silk, or cocoon, which they spin around themselves. These cocoons are hidden beneath the bark and under rubbish. Such as happen to escape the hungry search of woodpeckers and other birds change to the pupa stage in the spring. In this stage changes take place inside the body of the worm which so transform it that early in June it comes out of the cocoon as a small brown moth.

These moths lay great numbers of eggs, which hatch into small worms. These worms eat their way into the apple through the blossom end. The apples thus affected usually fall off, and in a short time the worms crawl out and again spin cocoons around themselves. The life cycle is lived over again, and a second brood of the

moths appears about the middle of July. It is this brood which does the most damage. It is the worms which hatch from the eggs laid by them that are so often found in fall and winter apples.

Many poisons, of which Paris green is the one most commonly used, are effective in destroying the codling moth. Paris green is usually used in connection with Bordeaux mixture, which is a remedy for the various fungous diseases which affect the leaves and fruit.

To make this mixture dissolve five pounds of copper sulphate and five pounds of lime separately in twenty-five gallons of water each. When they are thoroughly dissolved mix the two solutions and add four ounces of Paris green. The lime in this solution is added to prevent the chemicals from injuring the leaves and to make the mixture stick better.

Three sprayings are sufficient for the codling moth. The first should be given immediately after the blossoms fall, the second from ten to twenty days later and the third about the last of July.

One of the chief insect enemies of the plum and one which also attacks many of the other fruits is the cur-

ly. The curculio beetle lays its eggs in the young fruit shortly after it sets. In doing so it leaves a half moon shaped scar, which is its trademark. One of the surest ways of getting rid of this insect is to jar the beetles from the tree at this time.

Spraying is also an effective remedy. The Bordeaux-paris green mixture may be used, but arsenate of lead is better, since it is less liable to injure the leaves. It is applied at the rate of three pounds to fifty gallons of water. The spray should be applied just before the blossoms open, just after they fall and again about fifteen days later. Poisonous sprays should never be applied to fruit trees while they are in blossom. It is not necessary in order to destroy the insects and will kill many of the honeybees, upon which the blossoms are so dependent for pollination.

The insects that have been mentioned so far live by eating the leaves and fruit and in doing so take up enough of the poison to put an end to their destructive work. There is another class of insects, however, for which such remedies are not effective. These are the sucking insects, of which plant lice are the most common examples. Insects of this kind feed by drilling through the outer layer of the leaf or bark and sucking the plant juices. They thus escape damage from any poison which may be on the surface.

To get rid of sucking insects some substance which will kill by coming in contact with them must be used. There is nothing better for this purpose than kerosene emulsion. This is made by dissolving half a pound of soap in a gallon of boiling rainwater. This mixture is then taken from the stove and two gallons of kerosene added. The compound should be churned violently for a few moments by pumping it up with the spray pump and back into the pail. This causes the oil to mix thoroughly with the water. Before using, this original mixture is diluted with six to ten parts of water.

A common insect affecting garden crops and one that is hard to handle is the striped cucumber beetle. This is a serious enemy of cucumbers, squashes, melons and other plants of like nature. Spraying does little good and is liable to injure the tender plants as well. Where but a few hills are raised, covering them for the first two weeks with a small box with mosquito bar stretched across the top is a good preventive measure. Another effective plan is to go over the patch in the morning while the dew is on and the beetles cannot fly, knock them to the ground by giving the plant a slight blow and put a drop of kerosene on each one.

Where any of these crops are raised on a large scale the most effective remedy is the use of "trap plants." Plant the field to squashes a week or ten days before time to plant the main crop. The beetles are especially fond of squash plants and will gather on them in large numbers as soon as they come up. Just about the time the other plants begin to peep through the ground the squashes can be sprayed with very strong kerosene emulsion. This will destroy both the squash plants and the beetles. There will usually not be enough of the latter left in the neighborhood to do much damage.

Canadian bank deposits, which increased by \$12,000,000 in 1907, also increased by \$17,000,000 in 1908, while commercial loans, which increased by about \$50,000,000 in 1907, decreased by \$60,000,000 in 1908.

Superintendent of Trinity & Brazos Valley May Be Manager of H. B. & T.

Friends of Mr. J. J. Flynn, formerly a citizen of Paducah, but now superintendent of the Trinity & Brazos Valley railroad in Texas, will be pleased to learn that he has been offered the position of general manager of the Houston Belt & Terminal company. Mr. Flynn has been away from Paducah for about eight years, but during his residence in Texas he has become a popular man, and his ability for railroad work has been recognized.

Obedient Directions.
 Jones—Did you deliver my message to Mr. Smith?
 Johnny—No, sir; his office was locked.
 Jones—Well, why didn't you wait for him, as I told you?
 Johnny—There was a note on the door saying, "Return at once," so I came back.—Philadelphia Inquirer.

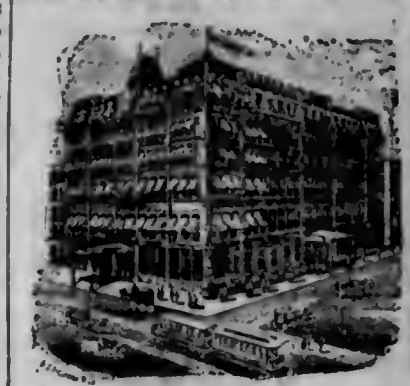

NOTICE.

I urgently request all persons indebted to me to make settlement before the first day of May, 1909, as I will after that date bring suit on every unpaid note and account due me. Now your account is to each of you a small matter, while the whole is to me very important. I shall deal with all alike; if you don't pay you may know that you will be sued, whatever your name or color may be. I hate to do this, but I am forced to it in self-defense. If you have not the money and will borrow it to pay me in full by the first day of March, 1909, I will deduct 10 per cent from your account, thereby paying the interest myself. Is this not as fair as any sane man can ask?

Monorail Line.
 It seems likely that the first monorail passenger line to be installed on any scale in the United States will be built within the limits of New York City on the route of the old horse-car line from the New Haven railroad tracks to City Island. The cars will be carried on two wheeled trucks, each pair of wheels running in tandem on a single rail, spiked to ties laid on the ground. Stability will be obtained by two overhanging trucks, carried on flexible arms, each truck running on L-shaped overhead rails carried on standards. The guide rails will act as conductors, the current being taken through the flexible arms to the motors.—Scientific American.

ENGLAND'S CRIME AGAINST ORIENT

Chief Promoter of Opium Traffic in China.

Correspondent of United Press Association Writes of This World Problem.

COMMISSION OF ALL NATIONS.

Shanghai, China, Feb. 11.—Before the representatives of the world powers of occident and orient together with representatives from the drug-cursed isles of remote Oceania constituting the international opium commission, which is in session in this city, England, the mother of the atrocious opium traffic is standing trial, charged with one of the most heinous crimes ever perpetrated against humanity.

Eliminating the great moral equation involved in this world movement to free millions of slaves from the drug habit, through the prohibition of the exportation or importation of opium except for medicinal purposes, political possibilities attend the findings of the commission which were holding the attention of the cabinets of those powers with far eastern interests.

The responsibility for the production of the drug to China and the extension of its vicious influence over the subject peoples of the east, is chargeable to England and the determined members of the world court now in session, have indicated their intention of demanding expiation of the offense, though it threatens the dismemberment of Britain's eastern empire.

That the surrender of England to the demand of opium prohibition under pressure from the other powers, which are practically committed to giving official aid in carrying out the recommendations of the commission, will develop an immediate crisis in turbulent India, is acknowledged to be inevitable.

History of Traffic.

A brief reference to the history of the opium traffic, in view of the desperate position England occupies today, justifies the belief in the law of ultimate compensation.

In 1834, Commissioner Lin, of the Chinese government, destroyed an enormous quantity of opium stored in Canton and an imperial edict was issued concurrently prohibiting the importation of the drug.

The destroyed opium had been imported from India. England realizing that the heavy export tax collected in India on the drug would be lost to her colonial treasury if the edict was made operative, charged China with destroying the property of English citizens, and dispatched a military and naval force against the helpless empire.

At the conclusion of the war thus inaugurated, China was forced to pay an indemnity of \$27,000,000 and to give official sanction to the importation of opium from India and finally

to cede Hongkong to the English. At this time there was not a poppy plant in China, not until England had made drug fiefs of millions of the Chinese, and the cultivation of the plant undertaken in China.

In 1897, the export tax collected on opium in India amounted to \$30,000,000 annually and today over \$50,000,000 is pouring into the colonial treasury from the same source.

This stupendous sum pays the entire expense of maintaining the British garrisons in India, and a large part of the administrative expenses of the colony.

The prohibition of the opium traffic would wipe out practically this entire revenue with no other source of revenue available.

Can't Levy Taxes.

Any attempt to levy taxes on the millions of millions of India, already facing starvation, it is admitted by the colonial officials, would result in immediate insurrection.

The present condition of England's finances prohibits the garrisons and administrative expenses being met by the home government. The same condition obtains in Hongkong, where practically all the governmental expense is met from the revenues derived from the unholy opium farms leased to Chinese by the British government.

The present session of the opium commission, a partial fulfillment of a prophecy made by Gladstone nearly 30 years ago, when advocating a prohibition of the traffic, he stated that if England continued this crime against humanity, she would reach the day when its expiation would result in the loss of her eastern possessions.

Many students of the eastern situation who have followed the trend of the world crusade against opium, think that the entire fulfillment of this prophecy is at hand.

It is owing to the embarrassing position in which England is placed that the commission meets only in executive sessions and its findings are reported direct to the governments represented.

Bishop Brent, of Manila, and Dr. Hamilton Wright, of the American delegation, are recognized as two of the most forceful members of the commission.

LIVESTOCK.

Louisville, Ky., Feb. 11.—Cattle—Receipts, 131; for three days, 1,542. There was rather a light attendance of buyers on the yards again, principally the local talent, yet owing to light receipts and a very good local demand, the trade ruled fairly active and fully steady. Choice butcher cattle sold out very readily, hardly enough of that class coming to supply the demand; medium and common kinds steady. The feeder and stocker trade was quiet, but steady. Bulls steady; canners and cutters slow. Milch cows unchanged. No heavy cattle on sale; feeling about steady. The pens were well cleared. We quote shipping steers, \$4.50@5.75; beef steers, \$3.00@5.25; fat heifers and cows, \$3.00@4.65; cutters, \$2.00@3.00; canners, \$1.00@2.00; bulls, \$2.00@3.75; feeders, \$3.00@4.75; stockers, \$2.50@4.35; choice milch cows, \$35.00@45.00; common to fair, \$15.00@30.00.

Calves—Receipts 57; for the three days, 318. The market ruled steady; best around 7 1/2c; medium, 4@6c; common, 2 1/2@4c.

Hogs—Receipts, 1,360; for three days, 6,173. The market ruled firm and active; pigs were higher; other grades, steady. Selected co. n. fed hogs, 160 lbs. and up, selling at \$6.70; 130 to 160 lbs., \$6.20; pigs ranged mostly from \$5.00 for light pigs to \$5.30 for heavy pigs; roughs, \$6.10 down. Hogs from doubtful sections selling only under guarantee, 1c per pound off on all soft or oily.

Sheep and Lambs—Receipts light; for three days 340. The market ruled quiet; about steady; best lambs around 6c; some fancy higher; culls, 3@5c; fat sheep, 4c down.

Kansas City, Feb. 11.—Cattle—Receipts, 4,000, including 500 southern; 10c higher; native steers, \$5.00@6.75; southern steers, \$3.80@6.00; southern cows, \$2.40@4.35; native cows and heifers, \$2.25@5.75; stockers and feeders, \$3.50@5.50; bulls, \$3.00@4.75; calves, \$3.50@6.75; western steers, \$4.25@6.35; western cows, \$3.00@5.25.

Hogs—Receipts, 8,000; market 10c higher; bulk of sales, \$6.00@6.50. Sheep—Receipts, 5,000; 10c higher; muttons, \$4.40@5.50; lambs, \$6.50@7.50; range wethers, \$4.00@6.50; fed ewes, \$3.00@5.15.

ASSOCIATION SALES; NEW CROP

To the Farmers of McCracken and Adjoining Counties.

Of six hogsheds of new tobacco, graded last week of my pricing, three have been sold at following prices: J. W. Harris and W. J. Downey, at \$11.00; W. J. Downey and E. L. Evans, at \$9.50; H. Massey, L. Thompson & White, at \$9.50.

Now enemies of the association may say that this price of \$11 is a bait. That is exactly what it is, and I want it to catch every farmer within reach of Paducah on the following proposition:

To every member of the association who delivers me his tobacco to price, of same quality and length, and it falls to bring \$11, I will make up what it lacks out of my own pocket. This was not a fine tobacco, but good and of extra length. I have duplicate sample of same, which will be kept for comparison.

Notice of First Meeting of Creditors. In the district court of the United States for the western district of Kentucky, in bankruptcy.

In the matter of John R. Roberts, bankrupt.

To the creditors of John R. Roberts, of Paducah, in the county of McCracken and district aforesaid, a bankrupt. Notice is hereby given that on the 10th day of February, A. D. 1909, the said John R. Roberts was duly adjudicated bankrupt, and that the first meeting of his creditors will be held at my office in Paducah, McCracken county, Kentucky, on the 20th day of February, A. D. 1909, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may come properly before said meeting.

Scipio Africanns was one of the greatest soldiers, save Julius Caesar, in Roman history. He defeated Hannibal and his Carthaginians at Zama, a city of Carthage, on October 19, in the year 202 B. C., and gave to Rome the ascendancy over the then known world.

ALL ROADS LEAD TO WASHINGTON

Bradley Special Will Carry Kentuckians.

Cheap Rates and Ample Accommodations Are Assured All Who Will Go.

THE BRADLEY MARCHING CLUB

All roads from now until March 4 will lead to Washington, and the Taft Inaugural Doubtless will be the most brilliant in the history of the United States. Representatives from every state and territory will be present in abundance and Kentucky will be represented as never before. From the Big Sandy to the Mississippi, and from the Ohio to the Tennessee state line will be represented at the inauguration of the incoming president, as well as Senator William O. Bradley taking his seat in the senate.

To give the people of Kentucky the best of accommodation the Bradley special will be run from Louisville to Washington and return with baggage coach, day coach, diner and a line of sleepers. Special arrangements have been made for the comfort of the passengers, and the expenses will be from \$10 to \$15 cheaper by going on the special train. The train is for every one, as well as women, and a pleasant trip is expected to the capital city.

The Bradley special will leave Louisville March 2 at 9 o'clock in the morning and will pass through the blue grass over the Chesapeake & Ohio railroad to Ashland and then through the battlefield section of Virginia, Blue Ridge and Allegheny mountains. The special will arrive in Washington about noon March 3. On returning the train will leave Washington March 5, at midnight, and will arrive in Louisville at 9:30 o'clock March 6.

The railroad fare for the round trip from all points on the Illinois Central, railroad between Fulton and Louisville will be \$22.50. The sleeping cars will be utilized while in Washington, and the cost for a berth for the entire trip will be \$7.50. Another item will be the white Bradley hats, which everyone from Kentucky will wear, and the hats will be sold at wholesale prices, \$2 each. Meals will be served in the diner and the cost will not be over \$6 for the four and one-half days. Badges and a cane cut from the famous Lincoln farm will be furnished the Kentuckians free. The total expense of the trip from Paducah will be \$28.

Paducah will be represented at the inauguration, as several citizens have expressed their intention of attending, while doubtless others will later. The Bradley marching club will march in the parade, and all members will be dressed in a dark frock, cutaway or Prince Albert coats, white vests, dark trousers, black ties, white Bradley hats, with a badge and a walking cane.

STRIFE IN ELGIN HOSPITAL?

Dr. Hesse Resigns and Trouble With V. H. Podstata Is Rumored.

Elgin, Ill., Feb. 11.—Reports of a clash between Dr. V. H. Podstata, superintendent of the Northern Hospital for the Insane, and Dr. Phillip H. Hesse, member of the medical staff, and rumors of a general shake-up among the hospital physicians were current following news of the forced resignation of Dr. Hesse. Dr. Podstata is in Texas, and the stories are denied by subordinate officials. It is understood that Dr. Hesse received just prior to the superintendent's departure a curt note from Dr. Podstata telling him that his services would not be required after March 1. No reason is said to have been given. Dr. Hesse has been in the employ of the state institution for the last six months.

And a little kindness is a charitable thing.

Learn to Use the Telephone.

"Only about one person in every ten knows how to properly use the telephone," said a district manager of one of the local companies. "Yes, sir, I'll stand by my guns on that assertion; and I think I can prove my point. Nine out of every ten persons talk entirely too loud over the telephone. They actually shout and make so much noise that they drown out all semblance of clearness. Then they can't hear, and the first thing

you know there is a complaint about poor connection and faulty service. The correct way to talk over the telephone is to talk as you do in ordinary conversation, or even a trifle lower. People can't seem to realize that the telephone will carry a whisper even. No, they must talk loud enough to be heard from Tenth and Chestnut street to Germantown, if those be the connected points. Just try yourself. Try to use the low, well modulated voice, and see if you do not get infinitely better

service out of your telephone in the future."—Philadelphia Record.
